37 C. F. R. 1.181 Petition

I.

This Petition Is Timely Filed

1. This Petition is for relief from examiner's prejudice, denying to applicants, a fair and impartial examination. Its basis in fact is examiner's prejudice demonstrated at least in Office Action mailed 06/18/2003, a record document in this application.

II.

Return of Petition Fee

2. This Petition is made to correct a mistake, wholly by fault, of the U.S. Patent And Trademark Office and the return of the petition fee is requested.

III.

Facts

3. Examiner's Prejudice Towards Applicants and to Applicants' Attorney And Legal Representative Is Demonstrated By The Following Examiner Statements From The Office Action Mailed 06/18/2003, Denying Applicants A Fair And Impartial Examination, A Denial Of Equal Protection Under Law, And A Failure By The U.S. Patent And Trademark Office To Meet The Essential Requirements Of The Law.

A. Examiner's statements made in the Office Action mailed 6/18/2003 are repeated as follows.

i) "... applicant has only presented careless changes containing errors ..." (Page 2, line 3.)

ii) "... Applicant ... appears not to be familiar with the format of an Office action (sic) and how a grounds for rejection is (sic) presented." (Page 3, line 1 and 2.)

iii) "An Office action (sic) does not use the explicit words as 'the fact are.' (sic) Instead language used to present facts are for example. The 'reference shows' or 'teaches.'" (Page 3, lines 2 and 3.)

iv) "Merely because applicant is inexperienced with how an office action (sic) is presented and/or (sic) he chooses to ignore how the facts are presented ..." (Page 3, lines 4 and 5.)

v) "... applicant blindly restates the MPEP." (See Page 3, line 17.)

vi) "To applicant this may seem 'illogical' based on his abilities. However, his deficiencies to comprehend the basis for a rejection do not render it improper. (Page 3, lines 24 and 25.)

vii) "Merely because applicant is not familiar with the MPEP, patent practice and/or chooses to ignore such does not render a rejection improper." (Page 4, lines 1 and 2.)

viii) "When an examiner writes a rejection and he is assuming that he is dealing with a patent professional familiar with patent practice and prosecution, he may be brief with the consideration that the applicant would have the competence to understand, amend, and/or (sic) overcome the rejection. (Page 4, lines 4 to 6.)

ix) "Either in the present case, applicant is not a patent professional or he chooses to ignore the facts by taking the position that '(the rejection) fails to explain the facts, basis in law, or any other rational.'" (Page 4, lines 6 to 8.)

x) "Further, arguments pertaining this false and misleading statement will not be further addressed . . ." (See Page 5, line 15.)

xi) "All the facts are clearly stated such that a patent professional can easily determine how the prior art meets the limitations of the claimed invention." (See Page 5, lines 18 and 19.)

4. Applicants' attorney is registered to practice in the U.S. Patent Office, admitted to the Court of Appeals for The Federal Circuit, and to a number of state and federal district courts. Examiner has no knowledge of applicant's attorney's experience and abilities as a professional admitted to the practice of law. As directed to an attorney at law and a professional, examiner's statements, above, are well outside the scope of examiner's authority under any law, rule, or regulation, or under the examination standard of substantial evidence, as set forth in *re. Zurko* 358 F.3d 1379, 1385 (Fed. Cir. 2001).

5. Directed to a registered patent attorney, these statements made by a representative of the U.S. Patent and Trademark Office, without any qualification of privilege, can serve no purpose in advancing the prosecution of this application, and can only be maliciously intended by examiner, with the purpose to intimidate, insult, defame, and cause injury to the attorney's professional reputation and to prevent applicants from receiving a fair and impartial examination.

6. The damage caused to the applicants and to applicants' attorney at law, is irreparable, and applicant's attorney can offer no means or method for a cure to the harm already caused by the U.S. Patent And Trademark Office through its actions.

7. The Board of Appeals remanded this case prior to its scheduled hearing and remanded a related case of applicants, 09/396,530, filed 09/15/1999 assigned to this examiner, after its scheduled hearing, each for corrections related to the examination. In the related case, 09/396,530, filed

09/15/1999, after remand and review of the record by the Director, Patent Examining Groups 3710 and 3720, examiner's actions were made subject to the directions of the Supervisory Primary Examiner to resolve all of the issue raised by the Board and applicant. (Application 09/396,530, filed 9/15/1999; Decision On Petition, Paper No. 25.)

8. It is not possible to determine the reach or extent of any possible prejudice against applicants related to this application and to the related application 09/396,530, filed 09/15/1999, as exists in Technical Center 3700.

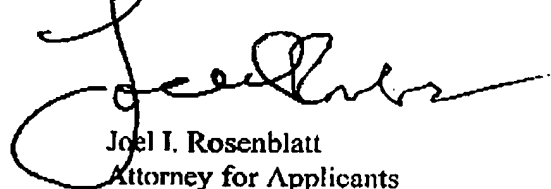

IV.

Relief Requested

9. First Requested Relief. To prevent any possibility of any continuing prejudice toward applicants or applicants' attorney, this application and related application 09/396,530, filed 09/15/1999 should be removed from any examination within, or related to, personnel in Group 3700.

10. Second Requested Relief. To prevent any injury to the professional reputation of Applicants' attorney from examiner's defamatory statements, this last Office Action dated 06/18/2003 should be removed and expunged and a new action prepared in its place, which conforms to Office practice and which is limited to matters within the allowed scope of examination.
